Projects

Clinic Management System [🔗](#)

I developed a comprehensive system for managing medical clinics designed to enhance the experience of doctors, assistants, and patients through an intuitive interface and advanced features, including:

Affalite Kseeb [🔗](#)

A fully integrated affiliate marketing system designed specifically to serve marketers, merchants, shipping companies, delivery agents, and moderators, streamlining the entire order process from creation to commission payout.

The platform allows the marketer to:

- Create orders manually.
- Set the commission rate themselves.
- Track orders until delivery.
- Receive commissions automatically to their wallet once the order is delivered.

WA PRIME PLATFORM [↗](#)

sass platform that enables businesses to automate and manage their WhatsApp communication for marketing, customer service, and integration with external systems.

clinic & beauty care land page [↗](#)

I developed a modern and fully responsive website for **Revive Clinics**, a specialized clinic in skincare and cosmetic services. The main goal was to enhance the clinic's online presence while ensuring a smooth and attractive user experience.

Coupon Primo [↗](#)

dynamic website for managing promotional offers and discount coupons. It is designed to serve users across multiple countries, offering a powerful admin panel with role-based access and full content customization for a seamless user experience.
